

My Pipelines

My Pipelines show the list of pipelines within a project. Pipelines can be created, viewed, edited, and deleted within the project scope. **My Pipelines** is empty, by default, and users can create new pipelines *de novo* or copy the pre-configured pipelines from the **Pipeline Library**. Follow the instructions in the next section to create a pipeline.

Revision #1

Created 27 January 2022 04:41:20 by Kshama

Updated 25 February 2022 09:48:22 by Kshama
